

VISCO 4.9 Release Notes

- 1) **Integration with XERO Accounting Software (<https://www.xero.com/>):** We are proud to announce that we are launching our integration with XERO accounting with this release. Similar to other accounting integrations we have done, information will be updated in XERO in real time when Customers and Vendors are added or edited in VISCO. Also Costs and Invoices can be posted in real time as well eliminating double entry or “import” procedures for our customers using XERO for their accounting needs. Of course, the information we pass down is fully customizable as well. **Coming Soon:** Look for us on XERO’s App Store (<https://www.xero.com/us/marketplace/s/app-functions>)
- 2) **New Auto Generate PO Options:** When you click "Auto Generate Purchase Order(s)" from SO Prep or Change screen, you will now have the option to edit PO prices directly from within the auto-generate confirmation screen as pictured below.

The following POs will be generated:

Collapse All

PO Number		Vendor Id				
120120120		Radio Station XYZ				
	Line	Product ID	Quantity	UoM	Price	Currency
<input type="checkbox"/>	1	New Product in June	1,501.0000	LB	0.00000	USD
<input type="checkbox"/>	2	New Product	1,000.0000	LB	0.00000	USD

- 3) **“Blanket Order” Setting on Sales Order affects the “Back Order” Checkbox on Allocation:** When you are upgraded to VISCO 4.9, if you identify a Sales Order as a “Blanket Order” through the associated field and have Back Orders available as an option in your install, when you go to allocate that Sales Order the “Auto-create Back Orders” checkbox will be selected automatically. An example appears to below.

Preparer: VISCO

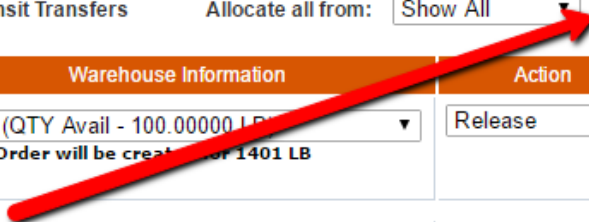

SO Date: 6/13/2014

Blanket Order? Yes No

Consignment Order? Yes No

Include In Transit Transfers Allocate all from: Show All Auto-create Back Orders Pro

Per Unit	Status	Warehouse Information	Action	
000	SO Issued	B&B (QTY Avail - 100.00000 LB) Back Order will be created for 1401 LB View	Release	Go To Final Matching
0000	SO Issued	View	Do not process	

Create Delivery for all new releases?

- 4) Minor Usability improvements – Removed “Document Already Exists” warning on PO, SO, Inquiry and Quote screens to reduce clicks. VISCO Customers who would like to add this back will be given a chance to do so via custom code delivered to their install at no cost.
