

VISCO 5.0.22 Release Notes

- 1) Two Factor Authentication (TFA) is now available. Unique TFA settings can be stored for each active user in VISCO. There are several options for TFA as summarized in the screenshot below (accessed from Admin: Manage Users)

Manage User

User Id	ap
User Name	ap
Last Changed On	1/16/2019 4:55:14 PM by VISCO
Image File Path	Choose File No file chosen
Password	*****
Confirm Password	*****
Email	support@viscosoftware.com
Mobile Phone Number (required for 2 factor authentication):	*****
Two Factor Authentication Security Setting:	Low - No TFA is required
Default Trader	Medium - TFA is required, however a 'Remember this device' checkbox is available
Custom Landing Page	High - TFA is required with each login
User Template:	VISCO

- 2) A VISCO Opportunity can be converted into one or several Sourcing entries. A button has been added which, if clicked will create a new Sourcing entry for each Vendor attached to Products on the Opportunity. You can seek pricing information using these new Sourcing entries and there is a cross reference between each that can be accessed from a link below the button at any time. Contact support@viscosoftware.com if you do not see this new button available from your Opportunity: General Information tab.

Opportunity: 4059
